Single Or Dual Lens Inspection Camera Endoscope with 5" IPS LCD Screen

Upgraded 5" IPS Screen : This endoscope is equipped with an upgraded 5 inch IPS screen which is more energy-saving than others. It makes inspection quicker and easier to take picture & record video. Plug and Play.

1080P HD Dual Lens : high-definition camera is built into the side of the main camera to help detect the side of the pipe. Long press to switch the main/side camera, allowing you to get a wider field of view. Easy to get start. All buttons are fluorescent and easy to operate even in dark environment. No mirror is needed.

IP67 Waterproof Bore scope : snake camera is only 8 mm in diameter and the lens is water resistant. It comes with a magnetic tip and a hook to help pick up object drop in drain pipe or hard to reach space.

4.8 LED Lights & Bright Torch Light : Featured with 8 adjustable LED lights on the bore scope camera tip, providing you a clear picture even in dark or low-light condition. Behind the endoscope, there is a built-in torch light for inspection at night. Built-in 3000mAh rechargeable battery, support continuously work for 4-5 hours.

One click to take photo, record video.
