

# CABLE LOCATOR «SUCCESS CBI-436»

## The set consists of:

- Headphones
- Receiver AP-027
- Electromagnetic sensor EMD
- Charger ➤ Holder
- Accumulators ➤ Operation manual
- Passport for the device

## Application :

**Detection of energized cables** (50-60 kHz mode) underground up to 6 m depth

**Survey the ground** before the ground works ("Broadband" mode with frequency range between 0.05 and 2.0 kHz)

**Indirect measurement** of the depth

## Cable detection mode :

### Receiver AP-027 + electromagnetic sensor EMD

**Visual indication:** digital value and animated (moving) scale of the output signal level,

**Graphic visualization** (moving chart) of sequence measurements with the step of 1-2 seconds for determining max and min signal level and the place of it.

**Storage** of 31 signal level with a graph displayed. Start window

**Sound indication:** synthesized sound in headphones and in built-in emitter

**Filters** 50(60), 100(120), 512, 1024, 8192 Hz or broadband

**Operation with headphones**

**Operation without headphones** (signal is transmitted to the built in radiator).

**Comfortable** to wear for long terms
